

Dear ELC Family-

With winter weather approaching, it's time to prepare for virtual school snow days. This year, we will continue our plan for three virtual and three make-up days. If school should be canceled, we will have the following virtual learning days for students and staff.

Each building principal sets the expectations for the virtual day and will communicate this information to their staff and students.

Demoney Elementary has preplanned activities for all students, which will be distributed to parents.

Middle school grades 5-6 are going towards more preplanned activities, which will be communicated to students and parents.

Grades 7-12 are on Google Classroom, and staff must be available to respond to students within a half-hour. All learning is a review.

Thank you for continuing to support your student learning during this time.

Be safe during this time.
